HOW TO ASSEMBLE

Installation Steps

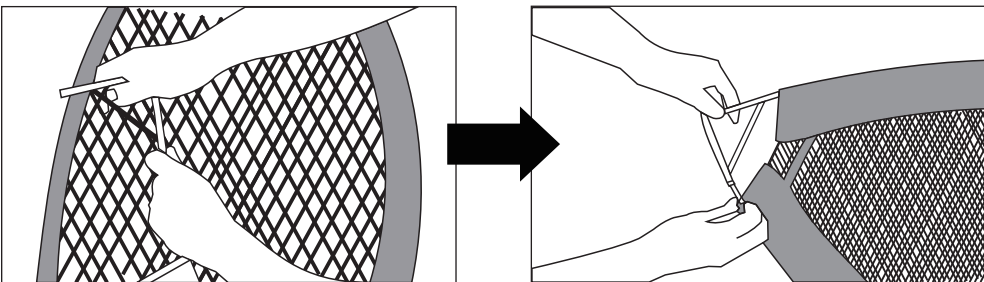

1. Use Steel Connectors to connect three single tubes with two single tubes with cap to form a long rod.

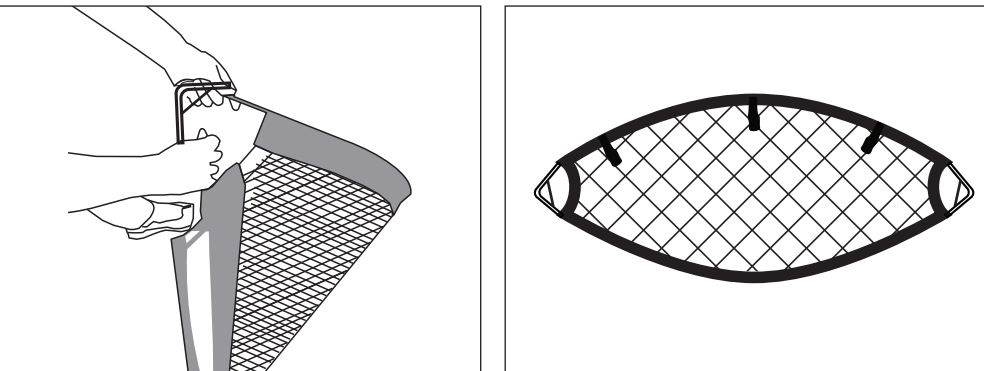

2. Insert the assembled tubes into the two holes in the net.

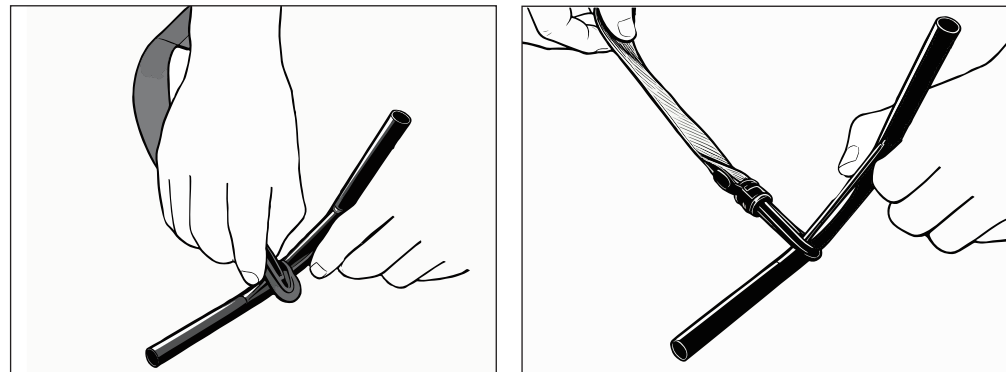

3. Connect the tubes to one of the Metal Elbows in set.

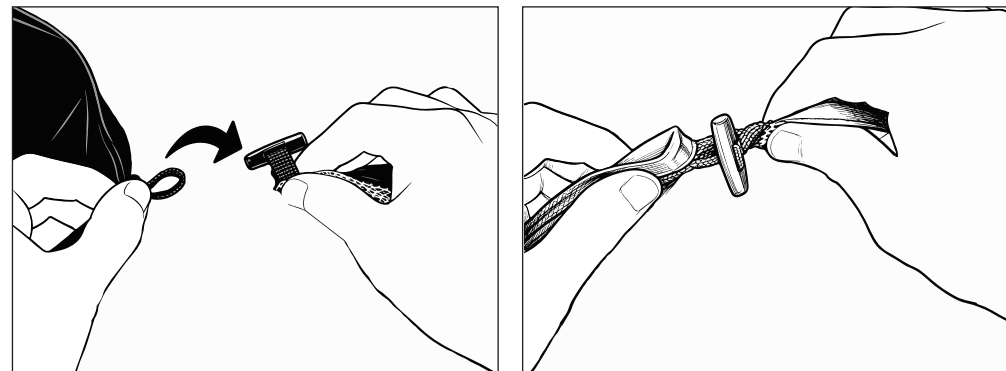

4. Step on the installed end with your foot then connect the unassembled tubes into the remaining Metal Elbow.

5. Connect the hooks at the bottom of (Reversible goal 1/2/3) to Metal Elbows.

6. Connect the hooks of (Reversible goal 1/2/3) to the olive buckles of the assembled mesh.

7. If using on grass, use the included Ground pegs to secure the net to the ground. On other surfaces, use sandbags or weights to hold the net to the ground.
