Frozen 2

SKU: 43625239 (310-21120)
Barcode: 9353767380139
Sold from 14/10/25 to 16/11/25

Reason the product is recalled

The product is being recalled because the sand may contain asbestos, which is a prohibited substance in Australia.

The hazards to consumers

The sand in the products may cause a risk to health as asbestos has been detected in some samples after laboratory testing. Importantly, respirable asbestos has not been detected in any of the tested samples. The release of respirable asbestos fibres is unlikely to occur in its current state, unless the sand is processed by mechanical means such as crushing or pulverising. The risk that any asbestos found is likely to be airborne or fine enough for inhalation is low.

What consumers should do

1. Stop using the product immediately. Do NOT open the sand tub. If the tub has been removed from the box, place it in a sealed plastic bag.
2. Contact Kmart with proof of purchase for a full refund.
3. For safe disposal advice from the Asbestos and Silica Safety and Eradication Agency, visit the [ACCC Product Safety website](https://www.asbestosandsilica.gov.au/). Do not place the product in household waste.

Important message from the ACCC to consumers:

The ACCC continues to work with health and safety, and other relevant agencies at the state, territory and Commonwealth levels as this issue evolves. For safe disposal advice from the Asbestos and Silica Safety and Eradication Agency and health information from the Environmental Health Standing Committee (enHealth), visit [the ACCC Product Safety website](https://www.asbestosandsilica.gov.au/).
